

The Land and Environment Court announces date of decision on Cinis Fertilizer's environmental permit application

The Land and Environment Court has today announced that the decision in the case regarding Cinis Fertilizer's environmental permit application for the production facility in Örnsköldsvik will be published on May 5, 2023.

Cinis Fertilizer has applied for an environmental permit for the company's planned production facility for mineral fertilizer in Köpmanholmen, south of Örnsköldsvik. Today, the Land and Environment Court in Umeå (*Sw. Mark- och miljödomstolen*) concluded its main hearing, which partly took place on site in Köpmanholmen on March 28–29.

During the negotiations, no new claims have been received that the company needs to respond to or take a position on. This means that the company's application is complete and today it was announced that the court's decision will be announced on May 5, 2023, at 2 p.m. CEST.

About Cinis Fertilizer

Cinis Fertilizer is a Swedish green tech company aiming to produce the world's most environmentally friendly mineral fertilizer, potassium sulphate (SOP), by recycling industrial waste products from the pulp & paper industry as well as the car battery manufacturing industry. The patent protected technology will use half as much energy as today's production methods and the result is a fertilizer with a close to zero carbon footprint, a unique and circular contribution enabling sustainable agriculture. FNCA Sweden AB is Certified Adviser. For further information please visit: www.cinis-fertilizer.com.
