

# Cinis delivers an additional 4,600 tons of potassium sulfate

**Cinis Fertilizer has sent another shipload of water-soluble potassium sulfate to its customer Van Iperen International. The cargo amounts to approximately 4,600 tons.**

The next shipload of water-soluble potassium sulfate has now been shipped from Cinis Fertilizer's production facility in Örnsköldsvik. The cargo amounts to approximately 4,600 tons.

Work to fine-tune the process continues with the aim of reaching a production rate equivalent to 100,000 tonnes per annum by the end of 2025.

## **About Cinis Fertilizer**

Cinis Fertilizer is a Swedish green-tech company producing an environmentally friendly mineral fertilizer, potassium sulphate (SOP), by, among other things, recycling waste streams from the manufacture of batteries and battery materials, as well as from the pulp industry and other industries. The patent protected technology will use half as much energy as today's production methods and the result is a fertilizer with low carbon footprint, a unique and circular contribution enabling sustainable agriculture. FNCA Sweden AB is Certified Adviser. For further information please visit: [www.cinis-fertilizer.com](http://www.cinis-fertilizer.com).
